EDUCATION

Fr. Conceicao Rodrigues College of Engineering

Computer Engineering BE

CGPA: 8.12

Bandra, Mumbai

June 2021 - June 2025

Thomas Baptista Junior College

Degree in HSC

Percentage: 89.67%

Vasai

July 2020 - July 2021

Holy Cross English High School

Degree in SSC

Percentage: 83.46%

Nirmal, Vasai

July 2018 - July 2019

SKILLS

Programming Languages: Python, Java, C, SQL
Libraries/Frameworks: TensorFlow / Keras, Pandas, Numpy, scikit-learn
Tools / Platforms: VS Code, Google Colab, Power Bi, Git
Databases: Firebase, MySQL

PROJECTS / OPEN-SOURCE

Celestial - Skincare App | [Link](#)

Android Studio, Java, Firebase

- Developed a personalized skincare app using Java and Android Studio.
- Designed an interactive questionnaire to capture user preferences and skin concerns.
- Implemented algorithms to recommend skincare routines and products tailored to users skin types and goals.
- Integrated a location-based service for booking dermatology appointments, enhancing user experience.
- Result: Successfully created a user-friendly app that improves skincare accessibility for over 100 users.

Mental Health Prediction Website | [Link](#)

Python, Django, Machine Learning

- Developed a Django-based website using machine learning (Random Forest, SVM) to predict mental health conditions like depression and anxiety, achieving 85% accuracy on a dataset of 10,000+ responses.
- Implemented personalized questionnaires and integrated educational resources, offering coping strategies and support for users with limited access to mental health professionals.
- Impact: Engaged over 500 active users, providing valuable mental health insights and support.

Sales Insights Dashboard for Computer Hardware Business (Power BI) | [Link](#) *Python, Power Bi, SQL, Excel*

- Designed and developed an interactive Power BI dashboard to provide real-time sales insights, tracking KPIs, sales performance, and customer trends.
- Integrated live data sources, enabling drill-down capabilities, and custom visualizations for sales forecasting and regional revenue analysis.
- Automated data refreshes and enhanced reporting efficiency, supporting strategic planning and optimized decision-making for sales operations.

CERTIFICATIONS

- AWS Academy Graduate - Cloud Foundations, AWS Academy (2024) - **AWS**
- Natural Language Processing with Classification and Vector Spaces - **Coursera**
- Accepted and recommended for publication at the Second International Conference on Inventive Computing and Informatics (ICICI 2024). - **ICICI**
