EDUCATION

Fr. Conceicao Rodrigues College Of Engineering

BE Computer Engineering
Present: Final Year | CGPA : 8.12

Thomas Baptista Junior College

- PCB with Marathi | June 2021
- Completed HSC with 89.6%
 - CET : 88%ile

Holy Cross English High School

- Completed SSC with 83.42%

CERTIFICATES

- Accepted and recommended for publication at the Second International Conference on Inventive Computing and Informatics (ICICI 2024).
- Participated in two hackathons: Strategem and Hackover 3.0.

SKILLS

- Python
- Data Science
- AI/ML
- Power Bi
- SQL
- EXCEL
- UI/UX Design
- Android Studio
- Java
- C

PROFILE

As a final-year Computer Engineering student with a deep passion for app development, I bring a robust foundation in coding and a strong track record in AI/ML projects. My experience is complemented by my proficiency in SQL, Power BI, and Excel, enabling me to handle complex data tasks efficiently. I am enthusiastic about leveraging my knowledge and skills to drive project growth and innovation. Committed to exploring opportunities to maximize my potential, I aim to contribute valuable ideas and achieve excellence in every project I undertake.

WORK EXPERIENCE

MENTAL HEALTH PREDICTION

Mental Health Prediction

Jul 2023 - Mar 2024

Mental Health Prediction is a innovative website that uses machine learning algorithms and large language models (LLMs) to assess mental health issues like depression, anxiety, loneliness, and stress. Through personalized questions, the platform accurately predicts mental health conditions and offers tailored information along with educational videos on coping strategies. This innovative approach makes mental health support more accessible and convenient, providing a comprehensive solution for users who may lack resources or time for traditional consultations.

CELESTIAL- A SKIN CARE APP

Celestial

Jan 2023 - May 2023

Celestial is a robust skincare app built with Java and Android Studio, designed to offer a personalized skincare experience. After users complete a detailed questionnaire, the app generates a custom skincare routine based on their skin type, concerns, and goals. It also recommends appropriate products and assists in finding and booking appointments with nearby dermatologists. With its intuitive interface and advanced algorithms, Celestial delivers accessible, effective, and convenient skincare solutions.
